

SURATTS TRIAL.

The trial of John H. Suratt, which commenced at Washington on Monday was arrested at the opening of the court by a motion on the part of the prosecution to quash the jury panel on account of an informality in the manner in which it was made up. It appears that the law designates three officers who shall jointly select the names to be placed in the jury boxes from which they are to be drawn, and that each one of them make a list of his own and insert the names without subjecting them to the inspection of the others, and the original list selected by the Register of the city of Washington, one of the officers appointed for the purpose, cannot be found, though he deposes that it was carefully filed for preservation. It is, therefore, unknown whether the jurors summoned for the trial are the persons legally selected as jurors or not; and the counsel for the Government are unwilling to proceed with the trial until this is ascertained. It is rumored, we do not know with what probability, that the jury list has been tampered with for the purpose of securing upon the panel a preponderance of persons of Suratt's religious faith.

It was believed by some that the Government would not be ready to have the trial go on, as it has been said some revelations would be made which prominent men at Washington would prefer to have remain secret. No little surprise and disappointment prevailed among this class when the Government counsel declared themselves ready to proceed, and the surprise was by no means diminished when the motion was sprung upon them to investigate the facts in relation to the jury. This question will occasion a delay, probably, of two or three days; and it may be that the Court will rule the jury out and order a new panel.

Mexico and Maximilian.

The intelligence from Mexico confirms the capture of Maximilian and his Generals. At the latest advice, Maximilian was still alive, though it was believed his wounds would prove mortal. Mendez had been shot, in consequence of a proclamation of Escobedo that those officers who did not surrender within twenty-four hours would suffer death, to which Mendez gave no heed. After his capture, Maximilian is said to have issued a proclamation in which he commends with great severity and not entire injustice upon the course of Louis Napoleon in reference to the attempt to force an empire upon Mexico. The proclamation is regarded as of doubtful authenticity, but if it is genuine it reveals the unspeakable disappointment of the would-be Emperor at the failure of his expectations. The thought of such a failure probably was not entertained by him when he entered Mexico, and it was the prudent foresight of Louis Napoleon that led him to withdraw himself from the alliance and the French troops from Mexico when it became evident that the attempt would miscarry.

In addition to Mendez, Col. Camacho, commander of Maximilian's Body Guard, who attempted to escape with \$4000 when the surrender took place, was also shot. No other executions are known to have taken place, although many are suspected. All the French officers are missing. The principal prisoners are confined together in a Church in very indifferent quarters, without beds or any toilet conveniences. Requisite, the wife of Prince Salma Salma, had made her way alone to President Juarez at San Luis Potosi to intercede for her husband's life and that of the Emperor. On her arrival there from San Luis, she, the Emperor and Prince Salma Salma, had a long interview with Escobedo, and there is reason to believe terms were arranged by which the lives of most of the foreigners will be spared.

The Princess Salma Salma is an American lady and is said to be related to President Johnson. The Prince was an officer in our army during the rebellion.

The following is the proclamation said to have been issued by Maximilian:

"Citizensmen—After the valor and patriotism of the Republican forces have destroyed my empire in this place, of which a tenacious defense was indispensable to save the honor of my cause and of my race—after the bloody siege in which the Imperial and Republican soldiers have contended in abnegation and boldness, I will explain myself, countrymen. I came to Mexico not only animated with the best faith of insuring the felicity of all and each of us, but called and protected by the Emperor of France, Napoleon the Third. He, to the ridicule of France, abandoned me cowardly and infamously by demand of the United States, after having uselessly spent forces and treasure and shed the blood of my sons and your own. When the news of my fall and death reaches Europe, all the monarchs of Charlemagne's country will demand of the Napoleonic dynasty an account of my blood, of the German, Belgian and French blood shed in Mexico. Then will Napoleon the Third be covered with shame from head to foot. To-day he is already seen in his Majesty of Austria, my august brother, praying for my life to the United States, and myself a prisoner of war in the hands of the Republican Government and with my crown and my head torn in pieces.

Countrymen, here are my last words: I desire that my blood may regenerate Mexico and serve as a warning to all ambitious and incautious princes, and that you will not with pride and transgression and enable with your virtues the political cause of the flag you sustain. May Providence sustain you and make you worthy of myself.

(Signed) MAXIMILIAN.

Letter from Saratoga.

Opening of the season at Saratoga Springs—Visitors—Leland's Grand Clarendon Hotel, &c., &c. SARATOGA SPRINGS, June 7, 1867.

EDITORS DAILY NEWS: The season opened here on the 1st inst. with unusual life and brilliancy; indeed, there is every indication that the forthcoming season at this fashionable and famous summer resort will be the most pleasant and exciting one on record. Go over the entire continent of Europe and America, and you cannot find a place where you can see more people with good sense and good brains, and with an equal proportion of the opposite class, who make the scene, in and about Saratoga during the summer months, fairly out rival the Carnival of Venice. Nowhere can you see the folly and the fashion which are indulged in as at Saratoga Springs. And there is no known spot on earth where the time glides by more pleasantly or more rapidly than here. Saratoga will be more thronged this year than it has been for a long time. There are already hosts of Europeans here sojourning at Leland's Grand Clarendon Hotel. The Clarendon is one of the most famous, favorite and delightfully situated in the place for the fashionable American and European pleasure travel. The influx of visitors is unusually great for so early in the season, while the everlasting cry is "still they come." The weather is charming, neither too hot or too warm for comfort or convenience, while Saratoga never appeared to better advantage, or her beauties and natural attractions more perfect and inviting. The hotels are all open with the exception of Union Hall. The Grand Clarendon Hotel is the favorite house of the place, and has always been under the proprietorship of Mr. Leland, the recipient of general praise both from the public and the press. "This house, you remember, that has been so often mentioned by 'Home,' the fashionable watering place correspondent of the New York Evening Express, in his correspondence with the Paris Times. The excitement all over the European continent, as well as that of the American, about the great fashionable summer tour of America, via the Hudson River, West Point, the Catskill Mountains, Saratoga, Lake George, Sharon Springs, Trenton Falls, St. Catharines, Niagara Falls, Toronto, Lake Ontario, the River St. Lawrence, Montreal, Quebec, the Saguenay, the White Mountains, Nahant and Newport, R. I., grows greater every day. The travel this season over this great route will be immense. Yours &c.

WILLARD.

The London Star says ominously startling features of the former famine are re-appearing in the west of Ireland. Famine and nakedness and the palsied look of hopelessness, accompany chronic hunger as of old, while there is the terrible novelty of cattle disease, which is so virulent that the despairing people seldom even skin the stricken beasts and sheep, but leave them unburied where they fall. The imminence of pestilence from this source is aggravated by the fact that the carcasses of pigs dying from the murrain are being fed upon by the more destitute of the sufferers, for the price of the two local staples of food, namely, potatoes and Indian meal, is now much beyond what the ordinary miserable wages of the district would supply. But even such are no longer being earned. Employment there is virtually none.

Upon the recent tragedy in Albany, the Journal of that city makes the following remarks:

"There is a growing disposition in the public mind to put a just estimate upon acts like this. Thoughtful men see that the safety of human life, and respect for individual rights, demand stern and unflinching maintenance of the laws against murder, whatever the circumstances of provocation that lead desperate persons to commit it. The circumstances surrounding this dire tragedy—the position and reputation of all the parties—the manifestly insufficient provocation for the deed—the suspicion at least, that Lisceock was sacrificed upon a lying tale, invented to screen a guilty woman—have given prominence to the transaction and importance to the discussion it has caused. The assassination may prove to be not without great compensations, if it shall result in purifying the false sentiments that have so much prevailed, and establishing the idea that murder should under all circumstances be regarded and treated as murder.

After the passage of the Louisiana secession ordinance, and while the government was unable to protect its interests, over one million of dollars was paid by mercantile firms of New Orleans to the rebel authorities as duty on goods in bonded warehouses prior to secession. The records of the whole of the transactions, with descriptions of the goods and the names of the parties interested, have come into possession of the government, and the Treasury Department has recently sent an agent to that city with instructions to collect the import duties in question for the benefit of the United States, the payment to the rebel authorities being invalid. It is said that one firm will have over \$100,000 to pay.

The controversy over the \$20,000 reward offered by the Washington City authorities for the assassin of President Lincoln is still pending in the Equity Court of the District of Columbia. Gen. L. C. Baker has nearly fifty competitors for the prize. The commander of the detail of troops which scoured the country for Booth and Harold, testifies that his orders were to report to Gen. Baker, and that he was not under command of Conger, who accompanied the command.

The yacht *Henrietta*, winner of the ocean yacht race, sailed at New York Saturday having made the homeward passage from Cowes in thirty-two days and eleven hours—beating the *Yacht*, which came in the other day, by seventeen hours. The *Henrietta* encountered heavy weather nearly the whole passage, and was compelled to leave to four times. She lost her flying jib boom, but beyond this sustained no injury. She kept the northern course during the passage, and first sighted land off Nantucket Shoals.

Miscellaneous.

The U. S. Treasurer states that there is more money in the Treasury subject to actual draft just at present than at any other time in the history of the government. The amount of gold on hand reached to-day \$101,000,000.

PERUVIAN SYRUP.  
A PROTECTED SOLUTION OF THE PROTOXIDE OF IRON, supplies the Blood with its LIFE-RELEMENT, IRON, giving strength, vigor and new life to the whole system.  
If the thousands who are suffering from Debility, Female Weakness, &c., would but test the virtues of the PERUVIAN SYRUP, the effect would not only be to refresh themselves but would please all their friends; for instead of feeling weary, "all gone" and miserable, they would be cheerful, vigorous and active.

A DISTINGUISHED JURIST WRITES TO A FRIEND AS FOLLOWS:  
I have tried the PERUVIAN SYRUP, and the result fully sustains your prediction. It has made a new man of me. Infused into my system new vigor and energy. I am no longer tremulous and debilitated, as when you last saw me, but stronger, heartier, and with larger capacity for labor, mental and physical, than at any time during the last five years.  
Thousands have been changed by the use of this remedy from weak, sickly, suffering creatures, to strong, healthy, and happy men and women; and I cannot recommend it too warmly to give it a trial. The genuine has "PERUVIAN SYRUP" blown in the glass.

**THE CHINGARORA**  
**ANTI-NEUROUS**  
**Smoking Tobacco!**  
The CHINGARORA TOBACCO grows from the  
rich soil of the "ORIENT" and is possessed of  
peculiarly delicate flavor entirely unknown to the  
tobacco of all other climes. It is an unrepresented  
popularly known source of health and vigor, and  
entirely free from the deleterious effects of the  
tobacco of all other climes, and which is the one and  
only cause of the distressing nervous diseases, dyspepsia,  
etc., which most invariably, sooner or later,  
follow the indulgence of the pipe and cigar. At the  
recent analysis of tobacco from all parts of the  
world, at the Academy of Sciences, in Paris, the  
renowned Chemist, M. LAMPROUD, declared that  
while European and American tobacco contained  
fully eight per cent. of the poison, the CHINGARORA  
tobacco contained only one per cent. of the same  
poison, and did not contain one sixteenth part of  
that deadly poison, a drop of which, extracted, will  
destroy life.  
Our agent at BOMBAY has shipped us large quan-  
ties of the CHINGARORA during the past two years,  
and although we have been pressed for it, we are  
now prepared to offer it in unlimited  
quantities, at a price lower than any American  
tobacco of a far inferior quality.  
A consumer has but to smoke the CHINGARORA  
tobacco and see for himself the difference in  
flavor, to be disgusted with the medicinal taste  
which leaves a nauseous, unhealthy coating in the  
mouth and in time seldom fails to show the ne-  
vroses.  
The analysis of the "ORIENT" tobacco, the CHINGARORA  
from more than 100 different sources, and are  
rapidly accessible of the world, as the leading fire  
which comes through the veins of the consumer of  
the smoke of this tobacco containing Nicotine.  
We have every variety of the best of the CHINGARORA  
and guarantee unrepresented pleasure in  
its delicious flavor. Sold everywhere at 1¢ a pound.  
**EDWIN M. COOK & CO.**

**THE UNION PACIFIC**  
**RAIL ROAD CO.**  
Are now constructing a Railroad from  
**OMAHA, NEBRASKA,**  
Westward towards the Pacific Ocean, making with its  
connections an unbroken line  
**ACROSS THE CONTINENT.**  
The Company now offers a limited amount of their  
**FIRST MORTGAGE BONDS**  
having thirty years to run, and bearing annual inter-  
est payable on the first day of January and July, in  
the City of New York, at the rate of  
**SIX PER CENT. IN GOLD,**  
at  
**Ninety Cents on the Dollar.**  
This road was completed from Omaha 805 miles  
west on the 1st of January, 1867, and is fully equip-  
ped, and trains are regularly running over it. The  
road is now open on hand sufficient from the west, etc.,  
to reach the remaining portion to the eastern base of  
the Rocky Mountains, 212 miles, which is under con-  
tract to be done September 1st of this year, and it is  
expected that the entire road will be in running or-  
der from Omaha to its western connection with the  
Central Pacific, now being rapidly built eastward  
from Sacramento, Cal., during 1870.  
**MEANS OF THE COMPANY.**  
Estimating the distance to be built by the Union  
Pacific to be 1,665 miles, the United States Govern-  
ment issues its Six per cent. "Thirty-year Bonds to  
the Company as the road is finished at the average  
rate of about \$28,250 per mile, amounting to \$47,000,000.  
The Company is also permitted to issue its own  
First Mortgage Bonds to an equal amount, and at the  
same time, which by special Act of Congress are  
made a First Mortgage on the entire line, the bonds of  
the United States being subordinate to them.  
The Government makes a donation of 12,500 acres  
of land to the mile, amounting to 20,812,500 acres,  
estimated to be worth \$30,000,000, making the total  
resources, exclusive of the capital, \$118,437,500; but  
the full value of the lands cannot now be realized.  
The authorized Capital Stock of the Company is  
one hundred million dollars, of which five millions  
have been paid in, and in excess of which it is not  
expected that more than twenty-five millions at most  
will be required.  
The cost of the road is estimated by competent  
engineers to be about one hundred million dollars,  
exclusive of equipment.

**Prospects for Business.**  
The railroad connection between Omaha and the  
East is now complete, and the earnings of the Union  
Pacific in the sections already finished for the first  
two weeks in May were \$115,000. These sections  
earnings as the road progresses will much more than  
pay the interest on the Company's bonds, and the  
through business over the line of the railroad be-  
tween the Atlantic and Pacific must be immense.  
**Value and Security of the Bonds.**  
The Company respectfully submit, that the above  
statement of facts fully demonstrates the security  
of their bonds, and as additional proof they would  
request that the bonds be sold at a price less than ten  
million dollars on 67 1/2 miles of road, on which over  
twenty million dollars have already been expended;  
—on 320 miles of this road the cars are now running,  
and the remaining 167 miles are nearly completed.  
At the present rate of premium on gold these  
bonds pay an annual interest on the present cost of  
**Nine Per Cent.,**  
and it is believed that on the completion of the road,  
like the Government Bonds, they will go above par.  
The Company intend to sell but a limited amount at  
the present low rate, and retain the right to advance  
the price at their option.

**DR. J. W. POLAND'S**  
**HUMOR DOCTOR.**  
**A positive Remedy for all**  
**kinds of Humors,**  
Erysipelas, Nettle Rash,  
Salt Rheum, Scrofula,  
Carbuncles, Boils,  
and Piles.  
IT is very cas-  
ily, or any other Medicine,  
it is not  
always easily procured, it is however, ex-  
ceedingly gratifying to the proprietor of this Medicine, that  
it has so generally to the public that this is a most  
valuable and effective remedy for Humors, as it  
has abundant proof at hand to sustain  
its pretensions.  
For fifteen years the Humor Doctor has been man-  
ufactured and sold, and every year has increased the  
value of its reputation, and the amount of its sale.  
In New Hampshire, where it was originated, no reme-  
dy for Humors is so highly prized. An eminent phy-  
sician (now an army surgeon), when practicing in N. H.,  
purchased several bottles of this Medicine, and used it  
during some seven or eight years, and used it in his  
practice. He has since then ordered it for the Hospi-  
tal where he was stationed. Other physicians have  
purchased it, and have used it in practice with great  
success. When the proprietor lived in New Hamp-  
shire, at 61 Devon Street, for the space of thirty or  
forty miles around, and in Manchester particularly,  
the Humor Doctor was well known and highly valued  
for the numerous and wonderful cures which it  
effected. Though manufactured in large quantities,  
the supply was constantly exhausted, and patients  
had to wait for more to be made. In that region,  
some very severe cases of erysipelas were treated with  
it, and they were cured. Erysipelas, or car-  
buncles, those ugly painful ulcers, were entirely re-  
moved, wherever this medicine was faithfully used.  
So it was with Scrofula and Salt Rheum. The Humor  
Doctor cured them.  
Since the proprietor removed to Melrose, Mass.,  
his present residence, he has been regularly selling  
it to patients who have applied to him in person, and  
has been very successful in relieving and curing them.  
One case of Erysipelas of an old man 75 years of  
age, worth mentioning in particular. When he was  
the doctor's office he could only wear a pair of rubber  
overalls his feet and ankles were so swollen and  
sore. When he pulled off his socks the sores came  
out with them, and he was bleeding, feet were frightful  
to behold. Suffice it to say, that less than one doz-  
en bottles of the Humor Doctor (and in a few weeks)  
healed up those feet and ankles, so that they were  
smooth and apparently sound. The man wore boots  
without inconvenience. Numerous cases of erysipelas  
the same way have been cured with this medicine, to  
the entire satisfaction of them. In Melrose alone,  
there are more than a hundred persons who have  
used the Humor Doctor, and give it an excellent  
name. In all the towns around it is well known and  
approved.  
For the sake of showing what is thought of it, a  
few testimonials are here inserted:—  
**MILTON GALE, Esq., Boston.**  
Whereby certify that I was sorely afflicted with  
boils for two years, developing themselves on my  
limbs and other parts of my body. The suffer-  
ing which I endured from them are indelible. I con-  
fide to say, that I faithfully tried several of the most  
valuable remedies, but without removing the  
affliction. At last, by the earnest request of a  
friend, I was induced to try Dr. J. W. Poland's  
Humor Doctor, and I am happy to attest that all  
my boils were removed, and my health was restored  
by using Dr. Poland's aforesaid medicine.  
**MILTON GALE,**  
Boston, January 11, 1868.  
**A. C. WALLACE, Esq., Manchester, N. H.**  
Dr. J. W. Poland, Dear Sir,—I very cheerfully  
give my testimony in favor of your Humor Doctor,  
as an excellent remedy for Humors. My numerous  
troubles in Manchester know how severely I  
was afflicted with boils, and they know how per-  
fectly good my health is at present. Your Humor Doc-  
tor cured me. Please refer to me for particu-  
lar in my case.  
**A. C. WALLACE,**  
Manchester, N. H., June 11, 1868.  
**MRS. WHEELER, Stoneham, Mass.**  
I very confidently and earnestly recommend Dr. J.  
W. Poland's Humor Doctor as an excellent remedy  
for Humors, having been wonderfully benefited by  
it myself. My own case was a very severe and pain-  
ful one. For more than two years the skin upon  
the inside of both my hands, and even down on the  
wrist, was constantly cracked and broken and itched  
so that I was unable to use any kind of soap, and  
was obliged to wear gloves in sewing to avoid  
getting blood upon my work. The humor which so  
afflicted me was probably a combination of Erysipelas  
and Salt Rheum. My general health was quite  
poor. Soon after I began to use the Humor Doctor,  
I could perceive signs of healing. I continued to  
take the medicine till I was finally cured. My hands  
are now perfectly free from humors, and to all ap-  
pearances my whole system is clear of it, and has  
been for several months. I need not say how  
before I felt safe to give it entirely up, but they cured  
me.  
**MRS. WHEELER,**  
Stoneham, Mass., July 5, 1868.  
**MRS. PORTER, Dover, N. H.**  
Dover, N. H., July 22, 1868.  
Dr. Poland,—I received your letter inquiring as to  
the effects of your medicine on a case of Erysipelas.  
I am happy to say that I think it is "the medicine" for  
this dreadful sickness. I tried various prescriptions  
but found none that suited the stomach and cleared  
the blood like the Humor Doctor. I felt as though I  
could have been able to get ashore, to treat you to la-  
titude in the ship chandlery stores, that it may find  
its way to those who suffer upon the mighty deep  
from sea sickness. If captains who take their fam-  
ilies with them, or carry passengers, should try it for  
this, they would never be willing to voyage without it.  
I have used it in my family since its introduction to  
the public; for bilious habits, headache, and humors  
about my children, and have always found it a re-  
lief. I am not fond of having my name appear in a  
newspaper, and would be content, so it on any account, but  
to relieve the suffering, but if the foregoing will be of  
any service to you or to the public, you can make  
use of it.
